If you have single document then also you can split the documents page wise and upload document against document type. This will help system to keep the document against data in disciplined way.

System allows to upload single document for more than one document type, for this you need to select document types (say address proof, PAN Proof) then browse and Upload.

System also allows you to upload single document against all document type. For this you need to select "Upload All Together" browse and upload.

We prefer to receive individual document against respective document type.
